

Segments

How to create a segment on promotion Builder ?

Below are the steps to create a segment

1. Open a [Promotion Builder](#) and go to the segment dashboard.
2. Click on Create New Segment on the right hand side corner.
3. Add Segment Name (* Please note segment name will be used as a segment & it cannot be changed or edited once created)
4. Add business, eg Beauty / Fashion/ Man (select the business for whom you want to create segments)
5. Add the matches (segment Value - see the sample reference below for better understanding)
6. Select the classification Operator
(AND (and is used when all condition should meet)
OR (OR is used when any 1 condition should meet)
7. Then submit to create a segment.

From where you will receive a request ?

You will receive an email to create a segment with the details mentioned below (**file path / file name / Key / Values**).

Segment details 1

File Path - s3://nykaa-ups/auto_bulk_upload/date=2025-08-20/nykaa_now_luxe.csv

File Name: nykaa_now_luxe.csv.

Key : Customer_id Value: pincodes

[Rule for segment 1](#) (please don't make any changes in the rule)

Matches (below is the format for segment you can copy the format from existing rule & can edit as per the request)

```
[{"key": "nykaa_now_luxe_Customer_id", "operator": "IN", "values": ["pincodes"]}]
```

File Name/ File Path	Key	Value
----------------------	-----	-------

Classification Operator

AND

Segment details 2

File Path:

s3://nykaa-ups/auto_bulk_upload/date=2025-08-24/nykaa_now_ganeshchaturthi.csv

File Name: nykaa_now_ganeshchaturthi.csv.

Key : Customer_id Value: pincodes

[Rule for Segment 2](#) (please don't make any changes in the rule)

Matches (below is the format for segment you can copy the format from existing rule & can edit as per the request)

```
[{"key": "nykaa_now_ganeshchaturthi_Customer_id", "operator": "IN", "values": ["pincodes"]}]
```

File Name/ File Path

Key

Classification Operator

AND

Sample for Reference

Create Segment

Name *

SEGMENT NAME

Business

☐ BEAUTY

☐ FASHION

☐ MAN

☐ NYKAAD

☐ NIKE

SELECT THE BUSINESS YOU WANT TO CREATE SEGMENT

Matches *

[{"key":"nykaa_now_ganeshchaturthi_Customer_id","operator":"IN","values":["pincodes"]}]

Hint: Insert a valid json array E.g [{"privy_loyalty_status":"0"}]

Classification Operator

Classification OperatorAND

SUBMIT

UPS Upload:

The BI team extracts the customer IDs and uploads them in a CSV file against the respective cohort.

In the UPS file:

The Customer ID column contains the user identifiers.

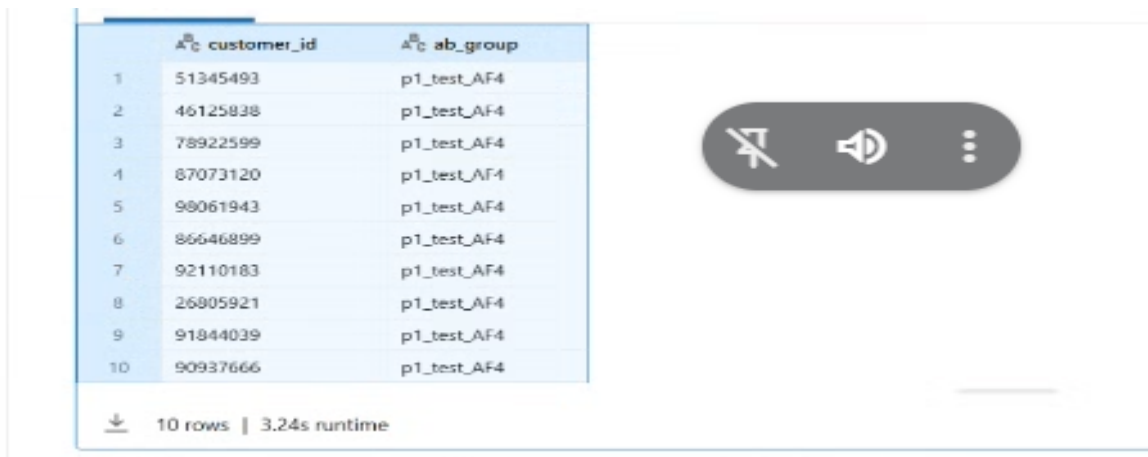

The column header against the Customer ID acts as the key.

The attribute/value updated under that column for each customer is considered the value.

These key-value pairs are then used for segment creation.

Please refer to the below segment and its corresponding UPS file for reference:

Segment: p0_test_AF4

	customer_id	ab_group
1	51345493	p1_test_AF4
2	46125838	p1_test_AF4
3	78922599	p1_test_AF4
4	87073120	p1_test_AF4
5	98061943	p1_test_AF4
6	86646899	p1_test_AF4
7	92110183	p1_test_AF4
8	26805921	p1_test_AF4
9	91844039	p1_test_AF4
10	90937666	p1_test_AF4
