

Bottom Navigation – SOP Documentation

1. Overview

Bottom Navigation refers to the animated tile displayed on the **bottom-left section of the app interface**. When a user taps this animated tile, they are redirected to a specific page configured in the backend.

This SOP outlines the end-to-end process for configuring, scheduling, tracking, and coordinating Bottom Navigation updates for both iOS and Android applications.

2. Stakeholders

Stakeholder	Responsibility
Ritika / Creative Team	Shares the Bottom Navigation image asset
NOC Team	Generates and shares the image URL
Webcom / Execution Team	Tracking, Jira creation, coordination & publishing
iOS & Android App Teams	Updates configuration and refreshes counters

3. Required Resources & References

- **Bottom Navigation Tracker Sheet:**
(https://docs.google.com/spreadsheets/d/1QLy6IRLYCzBPWJJJaXqnC0nL_nOu8D8PyHS7kiHroIUk/edit?gid=44868264#gid=44868264)
 - **Jira Project:** BAW (Reference Example Ticket: BAW-18163)
 - **Bottom Navigation Group:** iOS + Android + Webcom
-

4. Process Workflow

Step 1: Receive Image Asset

- Ritika shares the Bottom Navigation image with the team.
 - Verify the image format and resolution as per app requirements.
-

Step 2: Send Image to NOC Team

- Share the image with the NOC Team.
- Request the **image URL**.
- Await confirmation and link.

Step 3: Update Bottom Navigation Tracker Sheet

Once image URL is received, update the following details:

- ✓ Image URL
- ✓ Redirection URL
- ✓ Schedule (Start & End Date/Time)
- ✓ Campaign / Event Name
- ✓ Status

Tracker Sheet Link:

(https://docs.google.com/spreadsheets/d/1QLy6IRLYCzBPWJJJaXqnC0nL_nOu8D8PyHS7kiHroIUk/edit?gid=44868264#gid=44868264)

Step 4: Create Jira Ticket (BAW)

Create a Jira under BAW with the following details:

- Tracker Sheet Link
- Image URL
- Redirection URL
- Schedule
- Any special instructions

Reference Format Example: **BAW-18163**

Step 5: Update Tracker with Jira Details

- Add Jira ticket link into the Tracker Sheet
 - Mark status as **"Shared with App Team"**
-

Step 6: Share Jira in Bottom Navigation Group

Communicate with iOS and Android teams:

- 📌 Share Jira link
- 📌 Request implementation
- 📌 Ask them to refresh the counter after updating

Suggested message format (optional):

"Hi Team, please find the Jira for Bottom Navigation update. Request you to implement and refresh the counter. Thanks!"

Step 7: App Counter Refresh & Go-Live

- App teams update configuration and refresh counter
 - Allow **~10 minutes** for propagation
 - Bottom Navigation will start reflecting on frontend
-

5. QC Guidelines

- ✅ Verify animation appears in the bottom-left corner
 - ✅ Confirm correct redirection URL opens
 - ✅ Check visibility on **both iOS and Android**
 - ✅ Validate schedule alignment
 - ✅ Ensure no overlap with previous navigation
-

6. Escalation Matrix

Issue Type	Escalate To
Image Not Loading	NOC Team
Redirection Incorrect	Webcom + App Team

Not Reflecting After Refresh App Team

Schedule Conflict Webcom Lead
